live guide

|               |                                                                            |
|---------------|----------------------------------------------------------------------------|
| ROUTINE STEP  | Treat                                                                      |
| AMOUNT TO USE | 2-3 drops                                                                  |
| HOW TO APPLY  | Warm between fingertips and press gently into skin, avoiding the eye area. |
| FREQUENCY     | AM & PM                                                                    |

PRO TIP

Layer under moisturiser — a little goes a long way, more product won't boost brightening faster.

### Complete the routine

|                  |                                        |                  |
|------------------|----------------------------------------|------------------|
