|               |                                                                                                                 |
|---------------|-----------------------------------------------------------------------------------------------------------------|
| ROUTINE STEP  | Treat (mask)                                                                                                    |
| AMOUNT TO USE | 1 sheet                                                                                                         |
| HOW TO APPLY  | Unfold and apply to clean, dry skin, smoothing out air bubbles. Remove after 15-20 mins and pat in the essence. |
| FREQUENCY     | 1-2x per week                                                                                                   |

PRO TIP

Do this step before your regular serum/moisturiser, not after.

## Complete the routine

|          |                                                      |            |
